## SUSTAINABLE LIVELIHOOD PROMOTION OF SMALL & MARGINAL TRIBAL FARMERS THROUGH IMPROVED AGRICULTURE PRACTICES ENSURING FOOD & NUTRITION SECURITY

CCD is always focusing on the improvement of livelihood and food & nutrition security through enhancing production and productivity of agro-horti produces by the tribal farmers. As an impact of regular capacity building and campaigns, the tribal farmers have adopted sustainable agriculture practices with organic farming. Major crops are Paddy, Ragi, Pulses and Vegetables grown by the tribal farmers in our operational areas in Gajapati District, Odisha. Emphasis was laid on sustainable income generation as well as regular nutritious food consumption habits by the tribal families.

Crop cutting of Ragi was held at Gumma Block in 25 sqmt. The yield was 5.32 Kg i.e., an average yield per acre was 8.5 qtl. It was the fruitful achievement by the tribal farmers adopting SMI & Line Transplantation (LT) with agronomic practices. In the same locality, the farmers got the yield of 4 - 5 qtl of Ragi without adopting SMI and LT methods.

### Area coverage under Ragi and other Millets :

Block	No. of GPs	No. of Villages	No of Farmers	Total Area in Ha.	
				Ragi	Non-Ragi
Gumma	20	141	2680	834.40	235.60
Kasinagar	05	23	375	203.20	53.80
Total	25	164	3055	1037.60	289.40

## Major achievements during the quarter

1. Farm bund / stone bunding was held in 14.56 ha . of land by 73 smallholder farmers and wasteland developed by 45 smallholder farmers in 9 ha.
2. 218 farmers have cultivated Paddy, Ragi, Pulses, Vegetables like Tomato, Brinjal, Cauliflower, Radish, Chilli, Ridge Guard and Pumpkin and plantation of fruit bearing trees and Tuber crops.
3. 7 tribal farmers have transplanted Mango, Coconut, Guava, Sapota and Jackfruit in 3 ha. land for promotion of agro-forestry.
4. 60 families have promoted backyard nutri-garden adopting organic cultivation.
5. 33 farmers have cultivated different varieties of vegetables with bucket kit / drip irrigation.
6. 5 vulnerable / Persons with Disability families were supported 5 nos of breeding goats for income generation.
7. 85 families have promoted Model farm with multi cropping and transplanted Guava, Banana, Pomegranate, Lemon, Drumstick, Mango, Coconut & Jackfruit in 26 acres of land.

3 farmers have demonstrated Arjun varieties of Ragi in 0.25 ha of land. Wonderful result has come up. Earlier the farmers were using traditional Ragi seed and getting the yield of 15 - 17 qtl per hectare with the tiller rate was 2 - 4 nos. But in the experiment of Arjun variety of Ragi seed the farmers got the yield of 22 qtl per hectare with 17 no. of tillers. They have exchanged the Arjun variety of seed to other farmers for upscaling.

13 tribal farmers have cultivated Arhor (Red gram) in 2.30 ha of land adopting agronomic practices. The yield was 10 qtl per ha (Average). They have sold 80 % of the yield and got INR 40000/-.

During the reporting period the tribal farmers of Kurlandaguda have cultivated Paddy in 1.2 ha. by 6 farmers in the developed barren land without using any fertilizer inputs. As the trial basis they have cultivated Paddy. But their efforts were given fruitful result. The farmers got the yield of 18.75 qtl per ha. With total production of 22.50 qtl with good quality of Paddy from 1.2 ha. They are happy that their agriculture land holding capacity has increased and the income source sources also enhanced. They are planning to use the developed land with all type of crops with multi cropping using organic inputs. They have sold all 22.50 qtl of Paddy and got INR 45600

Backyard Nutri Garden is providing nutritious / organic vegetables for regular consumption as well as income opportunities. During the quarter 60 tribal families were supported quality seeds. The families got 80 Kg (average) of vegetables during the quarter. The households have used 60% of the organic vegetables for consumption purposes, rest of them sold at their village and also provided to their relatives to improve their consumption practices. Each family got the income of INR 4,000/- in an average after consumption. Earlier they were purchasing the vegetables from the market which was not fresh and organic and high rate. Now the purchase from market is partially avoided and they have saved upto INR 3,000 to INR 3,500. So in an average their annual income has increased to INR 7,000. The families are happy to get the fresh and nutritious green vegetable and green leaves at their door step for regular consumption.

During the quarter 5 landless families / Persons with Disabilities were supported 4 breeding Goats and in this year total 47 landless, vulnerable and PwD families were supported. With their own contribution they have purchased 4 - 5 goats. Now 30 families have benefitted with 1 - 2 kids. Regular vaccination is going on with the interest of the community and the support of Veterinary Department. In this year some of the families have planned to sell the mother goat who has already given birth the Kids. It is expected Rs. 10000/- as an annual income will be earned by the Goat beneficiaries.

59 Children with Intellectual Disabilities are being provided Physiotherapy services by our Physiotherapist with necessary therapy equipments and also providing training to the Parents on different techniques of Therapy exercise so that they can able to continue the therapy services to their children atleast 3 - 4 times in a month. 20 Children have recovered by 40% - 80% With continuous Therapy services.

#### Physiotherapy is a hope for better diagnosis

Nandini karjee of Padasahi village, Rayagada Block of Gajapati, aged about 4 years old has been suffering with CP quadriplegia. After birth of Nandini, her parents could not pay attention on her physical movement and health development. Gradually Nandini's health condition was very complicated and she could not sit, stand, walk. Her physical movement was completely idle. Her parents tried a lot for better diagnosis from Doctor but due to poverty, they could not afford the expenses.

CCD has identified Nandini and for the last 3 years she is under physiotherapy treatment by our Physiotherapist. With the regular treatment for 3 – 4 times in a month, now physical improvement of Nandini is better. She can sit without support and standing with support of other persons atleast for 20 minutes with poor neck control and limited arm movements. He good sign of improvement is visible now and her family members, neighbour people feel very happy of her improvements and her parents are expecting for Nadini's recovery atleast of 50% - to 60%.
