CASE STUDY - 1

Jinu charan Raita is a 12 years boy residing in Janglo village of Nuagada Block. Due to lack of early detection by the parents, he became affected by Cerebral Palsy(CP). Since birth he was unable to walk properly and also could not do his Daily Living Activities by himself, parents were very much upset and worried about his education and health because he is the only son in the family. His father is a teacher in Jangalo village Government school and mother is a house wife. As a father and teacher, he has also very much interested to provide education to his son - Jinu.

In the year of 2020 CCD staff identified him and started physiotherapy treatment on regular basis. Last 7 years he is under physiotherapy treatment. Now Jinu charan has improved 50% of his health conditions. He is studying in 6th class at Village Government School. Jinu charan is walking better than before with the supportive device which is called Gaiter and doing Daily Living Activities (ADL) independently. Now the parents are very happy seeing the improvement of their son. The parents have expressed their thanks to SSEPD and CCD for providing regular Physiotherapy services and taking care of Jinu.
